## F. D. TRANSPORTATION

Your cargo is anything but standard? Challenge us. We can advise you on the limits and – more importantly – the possibilities of its transportation, even before the start of your production.

### OUR SERVICES

We think outside the box – challenge us.

#### TIME-CRITICAL SOLUTION

Sometimes you need express solutions, so your cargo reaches its destination in the shortest possible time. When time is critical, let us help you with the fastest possible delivery of your shipments.

#### DOOR-TO-DOOR-SOLUTION

Whatever mode of transportation you choose, we take care of every step of the process – from collection to successful delivery – so you don't have to worry about a single thing.

#### AIR FREIGHT

When fast delivery of your cargo is crucial, we can organise a range of air transport solutions via liner and charter air freight services, including airport-to-airport transport and a complete door-to-door service.

#### SEA FREIGHT

Customised sea freight solutions are at the heart of our services. Whether it's full-container loads, less-than-container loads, RoRo shipping, OOG transport, or break bulk – we'll find the ideal solution for your cargo.

#### ROAD TRANSPORT

Whether you need a standard trailer or a special transport for your cargo – we offer you the optimum solution for a timely delivery.

#### PACKING/ WAREHOUSING

As a full-service provider we not only move your cargo but also take care of every step of the process to make your cargo ready for transport, like packing and packaging, stripping and stuffing, storing, and paperwork.
